Good afternoon Krista,
I am writing to you to voice my opposition to the proposed Crescent Gardens Cemetery. With the proposed 25 acres of burial grounds and 20,000 burial plots, I have deep concerns over the environmental factors at stake - the biggest concern being the direct effect on the ground water. With Canyon Lake being a drinking water reservoir, it deeply frightens me that we would have wrapped dead bodies buried without caskets, or embalmed directly into the dirt.

My property is directly across the street from this project. What is going to happen to my property value if this project is allowed to go through.

I know San Diego County already rejected this company from building this project in their county. I hope Riverside County does the same thing.

Will there be a public hearing on this proposal that might include surrounding residents who could be poorly impacted by the effects of this site?

Thank you,

James Downey
